## INTRODUCTION

This report illustrates the composition of the Manitoba economy in terms of the number of establishments. For an explanation of the term "establishment", please see the Definitions section below.

The number of establishments for December 1998, as compiled by Statistics Canada, are presented by:

- Industry sector and region,
- Employment size and region,
- Industry sector and employment size

## DEFINITIONS

### Establishment

The smallest unit of a company (whether sole proprietorship, partnership, co-operative, corporation, etc.) that is a separate operating entity capable of reporting all elements of basic industrial statistics. Revenue Canada Business Number Master Files are the base data source for the compilation of establishments.

Included in the Business Register is the universe of business entities having paid employees in Canada, i.e. the employers, and the business entities showing a minimum of \$30,000 in revenue but no employee, i.e. the non-employers.

Establishments are assigned to an industry sector according to the 1980 Standard Industrial Classification (1980 SIC), based on their major industrial activity.

In this report the industry sector "Business, Education, Health, Accommodation and Other Services" (SIC 7711 to 7799, 8511 to 9999) will be referred to as "Services".

### Employment Size

Codes give a range of employees only. Exact number of employees are not released.
